
KeyMacro is a personal information manager for the Mac. It has all the features of a full-fledged address book, but it's specially designed to keep track of your passwords and any important information you'd like to keep in one place. KeyMacro is so intuitive that it comes with a tutorial that walks you through the program's main features. It also allows you to create groups within the application and keep them as hidden, so they won't clutter your main window. Main features KeyMacro is packed with a variety of features, starting with a comprehensive address book. You can have a look at your contacts and check out their profile details. You can also view the text of each and every message you've received or sent. Not only will KeyMacro let you edit every aspect of the address book, you can also add or delete contacts by simply selecting the entry and clicking on the trash button. Aside from keeping track of your friends and acquaintances, KeyMacro is also capable of managing your passwords. You can create groups within the program and specify the access level of each. For example, you can give the 'Security' group access to all of your passwords, while the 'Personal' group will only have access to a small subset of them. Other features KeyMacro has a wide variety of customizable features. You can add your own shortcuts to the menu bar so you can use them even without opening the main window. You can change the appearance of the window, background, font, and even the color scheme of the entire application. You can also control how many columns you have in each category so you can be as precise as possible when adding or editing records. Last few words For anyone who likes keeping track of their personal information, KeyMacro is a great solution. It's easy to navigate and gives you all the necessary tools to keep things organized. KEYMACRO Description: KEYMACRO is a personal information manager for the Mac. It has all the features of a full-fledged address book, but it's specially designed to keep track of your passwords and any important information you'd like to keep in one place.
